Front End Software Developer for Cineplex Entertainment (Permanent Full-time)

Intermediate developer on the Front End modernization project - implementing the transition from a .NET MVC front end to Jamstack (Next.js and React)

Delivered AODA / WCAG compliant pages inside Cineplex.com, CineplexStore.com, and TheRecRoom.com, with more than 43M page views

Built web components using vanilla JavaScript, React, and Vue, including consuming REST APIs to bind data to component Views;

Wrote and maintained DevOps Wiki documentation on Front End standards and best practices

Agile workflow inside a large/enterprise environment including code review pipelines

Created and consumed UI storyboards, wireframes, and prototypes (Zeplin, Figma, Sketch, InVision)

Led and developed Merchandising digital sales pages using Shopify integration and customization tools

Transformed custom coded layouts into modularized templates and decoupling data from view using Agility CMS (headless)

Excellence in accessible / semantic HTML5

Vast experience with CSS3/ Sass / Less

Node-based bundling tools (Gulp, Webpack, Babel)

Proficient in Adobe Creative Suite for web / UI purposes and familiar with Design Systems / Component libraries

Solid grasp of JavaScript fundamentals and best practices

2015
2018

**Visual Designer, UX Designer,
Front End Developer - Freelance**

Worked with several clients in Toronto and GTA area developing branding elements, graphics, responsive websites, interfaces and emails for the entertainment and education industries. Clients include Seneca College, Shoppers, and Air Georgian.

Stack:

HTML, Sass / CSS, JavaScript (vanilla), Typescript, Sketch

JS Frameworks:

Vue, React

How I manage my code:

CSS Frameworks:

Bulma, Tailwind, Bootstrap, MaterialUI (React)

Continuously improving:

Performance, accessibility, CMS integration solutions

2020

**Full Stack Development
Juno College Toronto, ON)**

Back end basics, client & server communication, API implementation, NoSQL databases, authentication techniques

2017
2018

**Interactive Media Design 2 year Diploma
Seneca College (Toronto, ON)**

Took many years of self-taught web development and design skills to take a walk into formal education

2006
2014

**Master of Architecture, major in Lighting
Universidade Federal Fluminense (Rio de Janeiro, Brazil)**

I spent many, many years studying Architecture only to find out I really like computers.
